CAREER OBJECTIVE

I'm eager to pursue a role in fashion design or merchandising that utilizes my education and internship experience, focusing on sustainable fashion. I look forward to contributing my creativity to a brand that values sustainability.

WORK EXPERIENCE

Fashion Designer And Outreach Inter • Internship

Jun 2025 - Present

DC Studio, Virtual

As a Fashion Designer and Group Lead at ROOT X, a streetwear label blending Indian heritage with global aesthetics, I oversee design strategies and execution. Key Responsibilities: - Design Development: Created culturally inspired collections by merging Indian textiles with modern silhouettes, handling everything from research to fabric sourcing. - Trend & Market Research: to guide the creative direction of collections focusing on silhouettes, colors, and materials. - Team Leadership: Led a team of 10 designers and creatives, ensuring effective task delegation, mentorship, and adherence to timelines and standards. - Project & Communication Management: Served as the liaison between the design team and management, aligning strategies and ensuring brand consistency. - Creative Direction: Helped shape ROOT X's visual language by integrating glitch aesthetics, Indian street energy, and storytelling.

Supply Chain & Logistics Operations • Internship

May 2024 - Jun 2024

Mamta Fashion, Surat

Company Overview: Mamta Fashion, founded in 1991 by Sanjay Agarwal, is a Surat-based sole proprietorship specializing in curtain manufacturing with services like crushing, ressing (pressing), and punching. Duration: Summer Internship – Second Year Departments: Fabric Management, Processing, and Design Roles and Responsibilities: 1. Design Department: Assisted with curtain design development and colour palette planning. Helped select appropriate materials based on design aesthetics. 2. Crushing & Texturing: Operated machines for both mechanical and chemical fabric crushing. Gained insight into pattern creation through different roller pressures and chemical treatments. Ensured quality control for consistency in texture. 3. Ressing & Pressing: Learned to use steam and heat pressing machines. Understood techniques for pleat setting and wrinkle removal. 4. Punching Department: Assisted in punching fabric using die and laser cutting methods. Applied grommets for functional curtain hanging. Explored the use of punching for decorative enhancement. 5. Management & Operations: Maintained logs of fabric input and output. Coordinated with clients for processing details and cost estimation: Crushing: ₹2/meter Ressing: ₹5/meter Punching: ₹5/meter Key Learnings: Understood the back-end operations of curtain manufacturing. Gained practical experience in industrial processing and finishing. Learned inventory and material cost management

Digital Department • Internship

May 2023 - Jun 2023

Lakshmipati Industries, Surat

Company Overview: Laxmipati Sarees, founded in 1984 in Surat, is one of India's largest producers of man-made fabric sarees, kurtis, gowns, and lehengas. With 3,500+ workers and a strong global network, it combines traditional craft with modern technology. Duration: Summer Internship – First Year Departments: Digital Design & Embroidery Roles and Responsibilities: 1. Digital Department: Learned Adobe Photoshop for textile designing. Created digital saree designs using floral and pastel themes. Practiced layout arrangements and colour variations for print-ready outputs. Understood the difference between sublimation and digital printing. Developed bandhani-inspired digital patterns. 2. Embroidery Department: Observed multi-head computerized embroidery machines (coding, sequence, badla, etc.). Sketched border and buti patterns for sarees and kurtis. Learned fabric-thread matching using Silk Stranga fabric and threads like Badla, Coding, and Viscose. Used Wilcom software for punching and digital mock creation. Participated in stoning and foil stamping processes. Key Learnings: Gained hands-on experience with textile software and machinery. Understood the coordination between design and production departments. Developed professional communication and teamwork skills. Explored how traditional embroidery integrates with modern fashion tech

PROJECTS

Riwayat 2.0

Jan 2025 - Feb 2025

Kundalini – A Journey Through Fashion and Consciousness
Kundalini is a third-year fashion collection inspired by the seven chakras, representing the flow of spiritual energy through color, symbolism, and mindful design. Each outfit reflects a chakra's essence—red for grounding (Root), green for love (Heart), violet for enlightenment (Crown), and more. Using sustainable Khadi cotton, the designs feature crop tops with hand-drawn chakra symbols, beadwork, and energy-aligned semi-precious stones. Harem pants are tie-dyed to mirror chakra energy flow, while Rudraksha tassels add spiritual depth. Accessories like layered bead armlets and chokers enhance the Indo-fusion look, blending tradition with modern aesthetics. Kundalini transforms fashion into a journey of self-discovery and energetic alignment—where every outfit is not just worn, but experienced.

Shreezan

Jan 2023 - Mar 2023

Tropical Waves – Foundation Year Collection “Tropical Waves” is a vibrant children’s wear collection created during my foundation year in fashion design. Inspired by the lively spirit of tropical beaches and ocean waves, the collection captures the energy of summer holidays—sunsets, sea breeze, and playful freedom. Designed for comfort and movement, each outfit features lightweight, breathable fabrics and flowy silhouettes ideal for beach outings and poolside fun. The color palette draws from sunsets, turquoise waters, and coral reefs, while hand-rendered prints celebrate the joy and motion of nature. Garments like playsuits, tunics, and wrap dresses reflect child-friendly style with a bold, cheerful aesthetic. Surface design played a major role in giving each piece a unique, expressive touch while staying true to the cohesive theme. This show marked my first step into thematic storytelling in fashion, blending creativity with function and setting the tone for my future as a designer

EXTRA CURRICULAR ACTIVITIES

Riwayat

Jan 2024 - Mar 2024

Our second-year fashion show collection, Satrangi Leheriyo, is inspired by the traditional Rajasthani tie-dye technique, Leheriya, which means "waves" in Hindi. This technique, known for its ripple-like patterns and vibrant colors, represents the cultural richness of Rajasthan and blends tradition with modern aesthetics. Inspired by festive occasions like Teej and Rajasthani weddings, our collection features colors such as red, orange, green, blue, and pink, symbolizing love, prosperity, joy, spirituality, and celebration. We developed hand-painted and digitally rendered Leheriya patterns on lightweight fabrics like georgette and chiffon, allowing for grace and movement. The designs integrate Indo-Western elements, merging traditional draping with structured jackets, flowing capes, and tailored trousers. Gold piping and subtle embellishments bring a festive elegance to the collection.

- Led the decoration team for the Raas Exhibition at Vanita Vishram Women's University, coordinating theme-based setups, showcasing handmade crafts, and overseeing layout planning, material sourcing, and team delegation for a cohesive presentation.
